Roll Cage Safety Net

Product information

Made in England. TRS' safety roll cage net attaches to the roll cage and restrains a driver's head and shoulders during crash conditions within an open roll cage vehicle.

TRS' safety roll cage net is suitable for use in both race and rally saloon cars, is triangular in configuration.

TRS recommend that the visor pivot point of the helmet should be below the top edge of the racing net and that the entire shoulder support of the seat should be above the bottom of the racing net. Available in red, blue and black.

Features:

• Restrains occupants head and shoulders during crash conditions
• Attaches to the roll cage or baulk head
• Suitable for race and rally saloon cars
