

Titanium Exhaust Wrap

Product information

TRS' Titanium exhaust wrap is made from pulverized lava rock and is temperature resistant upto 2150°F direct heat. The state of the art construction, with its carbon look, helps reduce under bonnet temperatures and is easy to tightly wrap around manifolds.

The titanium exhaust wrap is very durable and offers both professional teams and clubman drivers outstanding value for money.

Features:

- State of the art titanium exhaust wrap
- Premium quality wrap manufactured from pulverized lava rock
- Temperature resistant up to 2150°F direct heat
- Very durable
- Reduces under bonnet temperatures
- Professional carbon look
