

Over the Wheel Lashing

Product information

Made in England the Over the wheel lashing is a two part assembly with a 3000kg rated break force. It features a double locking handle ratchet, claw hook end fittings and is produced using black 35mm width high tenacity polyester webbing.

Supplied with diverter claw hooks for secure transport and this lashing is ideal for cars with space constraints whilst being loaded. Suitable for race, rally and formula/sports proto cars. The tyre grip helps spreads the load onto the tyre.

Lashings are available from stock. TRS can also offer a bespoke service that can quickly produce lashings with alternative lengths, end fittings, ratchets or webbing to order.

Webbing can also be customer printed with your company logo or other design. Minimum order qty is x 50 lashings for own brand printing.

Features:

- Over the wheel lashing
- Diverter claw hooks for secure transportation
- Double locking ratchet
- 35mm black high tenacity polyester webbing
- Tyre gripper
- 3000kg Heavy duty
