

3 Point Lap & Diagonal Harness Retractable

Product information

TRS's 3pt lap and diagonal retractable harness is suitable for most classic cars from the 1950's-1990's and can be used on both the driver's seat and passenger's seat. 15cm, 30cm and 45cm stalk lengths, so please measure your old stalk to decide the length you require. Black webbing only and 3M length when fully extended.

To fasten the harness, insert the metal tongue into the slot in the release buckle until an audible click is heard. To release, push the RED button

Features:

- ECE regulation R16.08 homologated for use on public roads.
- Suitable for universal fitment to the front seat of most classic cars
- The harness is not handed, and can be used either on the driver or passenger side
- Retractable 90° inertia seat belt
- 48mm black x 3M length
- Fitting kit included
- 15cm, 30cm and 45cm stalk lengths available
