

## 2 Point Lap Belt

---

### Product information

TRS's 2pt lap belt harness is suitable for most classic car rear seats from the 1950's-1980's and can be used on either side. Sold as a pair, there will be two lap belts in each box. Black webbing only and 1.35M length when fully extended.

To fasten the harness, insert the metal tongue into the slot in the release buckle until an audible click is heard. To release, push the RED button.

Minimum Length with loose webbing: 55cm

Mid Length with no loose webbing: 95cm

Maximum Length: 135cm

#### **Features:**

- ECE regulation R16.08 homologated for use on public roads.
- Suitable for universal fitment to the rear seats of most classic cars
- Adjustable Webbing tidy
- The harness is not handed, and can be used either on the left or right side
- 48mm black x 1.35M length
- Fitting kit included
- Sold as a pack, with 2 x lap belts per box
