

Window Net Non Welding Kit

Product information

- Fast release window net fixing kit supplied complete with fixing brackets
- Press button release
- Black webbing only supplied with non weld on mounting kit
- Made in England Suitable for use with TRS' standard rectangle and quarter light window nets
- **Non-welding kit only - fixing kit to be purchased seperately**

Instructions:

- Attached tongue to the roll cage, either weld on house clip (tie wrap) to top of the cage
- Thread rod with press button through top of the window net
- Thread L brackets through the rod which doesn't have the quick release on and these can be hose clipped or tie wrapped to the bottom of cage
- Black webbing only supplied with non weld on mounting kit
- Use web and 3 bar slides on the plain rod to secure the rod to the cage as a back up method
