Drivers Footwell Carbon Fibre

Drivers Footwell Carbon Fibre

- ► High quality carbon driver footwell
- ► Textured grip to prevent drivers heels from slipping
- Ideal for tidying cockpit interiors
- ► Width 40cm x Length 44cm

Made in England. The drivers footwell features raised grip sections which reduces slippage allowing the driver to have greater pedal control in comparison to a standard footwell.

There is a slight raise in the footwell allowing the heal to position in a more comfortable position. Our drivers footwell is ideal for tidying the appearance of the cockpit interior.
